How to Use This Workbook

This workbook slows the lesson down, gives each major truth room to breathe, and helps the student move from hearing to understanding and from understanding to practice.

The student pages contain guided notes, word banks, fill-in-the-blank exercises, Scripture observations, short answers, and personal application. A teacher's answer key appears at the back. Reflection questions should be evaluated for honest engagement rather than exact wording.

Suggested Teaching Rhythm

Step | Classroom Use | Purpose

1 | Read the assigned Scripture aloud | Let the Word establish the subject

2 | Teach the section summary | Provide historical and theological context

3 | Complete the guided notes | Reinforce the main distinctions

4 | Discuss one application question | Move truth into ordinary life

5 | Close with prayer and one action | Respond in faith rather than information alone

Unit 1 When Boundaries Become Difficult to See

Name _____ Date _____

"And have put no difference between the holy and profane, neither have they shewed difference between the unclean and the clean." Ezekiel 22:26

The opening picture is a fence line between two farms. The boundary does not disappear all at once. A post leans, a wire breaks, weeds grow, and a new generation eventually inherits a confusion it did not create. Moral and spiritual confusion often develops the same way: ignored conviction becomes tolerated compromise, and tolerated compromise becomes normal.

The boundary did not move. Neglect made it difficult to see.

Guided Notes

Complete each statement from the lesson. Use the word bank if needed.

Word bank: neglected normal distinction attention policemen grace

1. A boundary _____ long enough becomes a boundary forgotten.
